Every Tire
Is Signed

Two men sign every Miller Tire—the maker and the inspector. Both are penalized if a tire comes back.

Under this method, defects have become extremely rare. Not a tire came back for adjustment to many Miller dealers last year.

Over 1,000 tires yearly are worn out in Miller factory tests.

All the best rival tires are constantly compared with the Miller, with these results: Millers now excel all rivals, both in average and in uniform mileage.

Miller treads outwear rival treads by 25 per cent on the average.

Miller Cords average 15,000 miles—Miller Fabrics from 8,000 to 9,000 miles—in rear-wheel tests under extreme conditions.

You will gain a new idea of modern tires when you test a new-type Miller. Get one now and watch it. The super-service of the Miller Tire is now everywhere discussed.

WARNING OF SECOND EXPLOSION RECEIVED

New York.—A postcard warning that an attempt would be made Monday to blow up the customs house, after the Wall street explosion last Thursday, was received in the mail by William B. Edwards, collector of internal revenue for this district.

This postcard, signed "A Citizen," was turned over to the custodian of the building by Mr. Edwards, who also notified Postmaster Thomas G. Paten. The department of justice, too, was informed of receipt of the postcard.

The warning said that the customs house, already under heavy guard, would be blown up at 2 p. m. Mr. Edwards said that a preliminary investigation had shown no evidence of a plot, and he was inclined to regard the warning as a hoax.

A few minutes before the warning postcard had been received by "Big Bill" Edwards, a former Princeton football star, Edwin P. Fischer, tennis player, who sent warnings of the first explosion, had declared at police headquarters on his arrival here from Canada that "more will happen in the future."

"Unseen powers had communicated that to me," he said.
